Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 6/10/2009 regarding claims 32-52, 55-62, 63-66 have been considered. Claims 1-31, 53-54, 63-65 have been cancelled and claims 67-70 have been newly added by applicant. Claims 32-52, 55-62, 66-70 are currently pending.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a method for communication between unsynchronized nodes in a OFDM multi-carrier system, utilizing a set of carriers and having a predetermined symbol length, comprising the unique steps of:

“the second node interpreting the received sinusoidal signal, including associating at least a frequency of the received sinusoidal signal with information about the identity of the first node, from which the existence of the first node within radio communication distance is determined even though the second node is unsynchronized with the first node.”

The closet prior art, Shattil et al. (US Publication 2008/0095121), discloses a method for use in a OFDM system, comprising receiving at a CI decoder a plurality of carrier-interference CI carriers that correspond to a particular user and use CI codes of the received multi-carrier CI signal to identify each of the radio devices. However, Shattil fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Art Unit: 2416

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
